- Professor Milod Kazerounian's ratings (4.9/5.0 overall quality based on 40 ratings)
- Note: All student reviews in this document are for Professor Milod Kazerounian

[Course: CS15] Fall 2025 Course Description

Source: Fall 2025 Course Catalog (<https://www.cs.tufts.edu/t/courses/description/fall2025/CS/15-01>)

A second course in computer science. Data structures and algorithms are studied through major programming projects. Topics include linked lists, trees, graphs, dynamic storage allocation, and recursion. Enrollment priority given to freshmen or sophomores; computer science majors or minors; or majors or minors that list CS15 as a requirement or elective.

[Course: CS15] Fall 2025 Course Sections

Source: Fall 2025 Course Catalog

1. Online Lecture Section:

- Section M1-LEC (Class No. 82948)
 - * Instructor: Chris Magnano
 - * Schedule: Tu 6:00PM – 7:30PM
 - * Location: Online
 - * Credits: 4
 - * Session: Regular
 - * Status: Open (green circle)

2. In-Person Lecture Section:

- Section 01-LEC (Class No. 80003)
 - * Instructor: Milod Kazerounian
 - * Schedule: Mo, We 1:30PM – 2:45PM
 - * Location: Barnum Dana Complex, Room LL08, Medford/Somerville

- * Credits: 4
- * Session: Regular
- * Status: Open (green circle)
- * Note: Must select 1 Lecture and 1 Laboratory section

3. Laboratory Sections:

- Section LA-LAB (Class No. 80010)
 - * Instructor: Milod Kazerounian
 - * Schedule: Tu 9:00AM – 10:15AM
 - * Location: Joyce Cummings Center, 235, Medford/Somerville
 - * Credits: 0
 - * Status: Open (green circle)
- Section LB-LAB (Class No. 80011)
 - * Instructor: Milod Kazerounian
 - * Schedule: Tu 10:30AM – 11:45AM
 - * Location: Joyce Cummings Center, 240, Medford/Somerville
 - * Credits: 0
 - * Status: Open (green circle)
- Section LC-LAB (Class No. 80021)
 - * Instructor: Milod Kazerounian
 - * Schedule: Tu 10:30AM – 11:45AM
 - * Location: Joyce Cummings Center, 235, Medford/Somerville
 - * Credits: 0
 - * Status: Open (green circle)
- Section LD-LAB (Class No. 80041)
 - * Instructor: Milod Kazerounian
 - * Schedule: Tu 1:30PM – 2:45PM
 - * Location: Joyce Cummings Center, 240, Medford/Somerville
 - * Credits: 0
 - * Status: Open (green circle)
- Section LE-LAB (Class No. 80022)
 - * Instructor: Milod Kazerounian
 - * Schedule: Tu 1:30PM – 2:45PM
 - * Location: Joyce Cummings Center, 235, Medford/Somerville
 - * Credits: 0
 - * Status: Open (green circle)
- Section LF-LAB (Class No. 80042)
 - * Instructor: Milod Kazerounian
 - * Schedule: Tu 3:00PM – 4:15PM
 - * Location: Joyce Cummings Center, 240, Medford/Somerville
 - * Credits: 0
 - * Status: Open (green circle)
- Section LG-LAB (Class No. 80023)
 - * Instructor: Milod Kazerounian

- * Schedule: Tu 3:00PM – 4:15PM
- * Location: Joyce Cummings Center, 235, Medford/Somerville
- * Credits: 0
- * Status: Open (green circle)

- Section LH-LAB (Class No. 80024)
 - * Instructor: Milod Kazerounian
 - * Schedule: Tu 4:30PM – 5:45PM
 - * Location: Joyce Cummings Center, 240, Medford/Somerville
 - * Credits: 0
 - * Status: Open (green circle)

- Section LI-LAB (Class No. 80407)
 - * Instructor: Milod Kazerounian
 - * Schedule: Tu 4:30PM – 5:45PM
 - * Location: Joyce Cummings Center, 235, Medford/Somerville
 - * Credits: 0
 - * Status: Open (green circle)

- Section LK-LAB (Class No. 80412)
 - * Instructor: Milod Kazerounian
 - * Schedule: Tu 6:00PM – 7:15PM
 - * Location: Joyce Cummings Center, 240, Medford/Somerville
 - * Credits: 0
 - * Status: Open (green circle)

[Course: CS15] Fall 2025 Course Details

Source: Fall 2025 Course Catalog

1. Meeting Dates: 09/02/2025 – 12/08/2025

2. Class Attributes:

- BFA–Science/Technology
- LA–Distribution–Mathematics
- SOE–Computing

3. Career: AS&E Undergrad

4. Textbook: See Textbook info link

5. Grading: Graded

6. Instruction Mode:

- Online (M1–LEC section)
- In Person (01–LEC and all LAB sections)

[Course: CS15] Fall 2025 Enrollment Requirements

Source: Fall 2025 Course Catalog

1. M1–LEC (Online) Prerequisites:

- Open to online CS or DS postbac, OR online CS or DS MS students

2. 01-LEC (In-Person) Prerequisites:

- Restricted to SOE undergrads, First or Second year A&S students, A&S students with a Major or Minor in CS or Cognitive and Brain Sciences, or CS Postbacs
- All students with the exception of CS Postbacs must have completed CS 11 with a C- or better

3. Special Enrollment Notes:

- Students who do not meet the prerequisites can sign up through special waitlist sections (lecture sections 02 and 03 and lab section LW) and will be allowed into the class if space permits
- Priority will be given to those minoring in computer science and those closer to graduation

4. Additional Course Information:

- Repeat for Credit: No
- Allow Multiple Enroll in Term: No
- Total Units Allowed: 4
- Total Completions Allowed: 1

[Course: CS15] Fall 2025 Enrollment Statistics

Source: Fall 2025 Course Catalog

1. Online Section (M1-LEC):

- Capacity: 40
- Enrolled: 1
- Available Seats: 39
- Wait List: 0 capacity, 0 enrolled, 0 available

2. In-Person Section (01-LEC):

- Capacity: 207
- Enrolled: 66
- Available Seats: 141
- Reserve Incoming CS grad students: 7 capacity, 0 enrolled, 7 available
- Wait List: 0 capacity, 0 enrolled, 0 available

[Course: CS15] Course Components

Source: Spring 2025 Course Syllabus (<https://www.cs.tufts.edu/comp/15/>)

1. Lectures:

- Two sections available
- Automatically recorded and posted on Canvas (Echo 360)
- Videos for class use only, no distribution allowed
- Regular attendance expected

2. Labs:

- Weekly mandatory sessions
- Hands-on practice with course concepts
- Pre-lab work may be required
- Two absences allowed without grade penalty
- Submission deadline: Friday 18:00 (6 pm) of lab week
- Can be completed on lab computers or personal laptops
- Must be registered for a specific lab section
- Graded based on attendance and submissions
- Full credit for good-faith effort even if incomplete

3. Assignments:

- Short homework assignments (7 days duration)
- Longer projects (2 weeks duration)
- Must be submitted on time
- All code must compile and run on department servers
- Limited submission attempts for testing
- Style and documentation requirements must be met

4. Office Hours:

- Held in JCC third floor common space
- Schedule updated regularly on Piazza
- Multiple TAs and Teaching Fellows available
- Graduate TA: Max Liu
- Teaching Fellows:
 - * Arya Prasad
 - * Hameedah Lawal
 - * Kathy Quintanilla
 - * Liam Drew

5. Final Exams:

- Section 1: May 2nd, 12-2pm
- Section 2: May 2nd, 3:30-5:30pm

[Course: CS15] Course Materials

Source: Spring 2025 Course Syllabus

1. Textbook:

- No purchase required
- Online readings from "Data Structures and Algorithm Analysis" by Clifford A. Shaffer
- Additional materials posted throughout semester

2. Required Software/Tools:

- C++ programming environment
- Access to department's Linux servers
- Terminal access
- SSH capability
- Text editor (VS Code recommended)
- Department EECS account

[Course: CS15] Course Policies
Source: Spring 2025 Course Syllabus

1. Programming Requirements:
 - All work must be in C++
 - Must work on department Linux servers
 - Code must follow style guide requirements
 - Programs evaluated on functionality and style
 - Memory management must be proper
 - No memory leaks allowed
 - Clean compilation required
2. Lab Policy:
 - Mandatory attendance
 - Two absences allowed
 - Must complete and submit work
 - Full credit for good-faith effort
 - No late submissions after Friday 6pm deadline
 - Pre-lab work must be completed before session
3. Style Requirements:
 - Must follow course style guide
 - Code graded on:
 - * Readability
 - * Structure
 - * Organization
 - * Functionality
 - * Documentation
 - * Comments
 - * Variable naming
 - * Code organization
 - Documentation requirements specified in style guide
4. Academic Integrity Requirements:
 - Individual work unless specified
 - All collaborations must be cited
 - No code sharing between students
 - No use of unauthorized resources
 - No previous semester solutions
 - Proper attribution for all sources
 - Consequences for violations clearly stated

[Course: CS15] Academic Support
Source: Spring 2025 Course Syllabus

1. Course Resources:
 - C++ References
 - CS11 Review Materials
 - Style Guide
 - Tips for Success

- Office Hours Guide
- FAQ Page
- System Setup Guide
- File I/O Documentation
- Makefile tutorials
- Memory diagram guides

2. Programming Support:

- Regular office hours
- Lab assistance
- Piazza forum
- Course staff support
- Debugging assistance

[Course: CS15] Success Strategies

Source: Spring 2025 Course Syllabus

1. Programming Practice:

- Regular coding exercises
- Complete all labs
- Utilize office hours
- Follow style guide
- Test code thoroughly

2. Learning Resources:

- Review lecture recordings
- Complete pre-lab work
- Use provided documentation
- Participate in labs
- Engage with course staff

[Course: CS15] Academic Integrity

Source: Spring 2025 Course Syllabus

1. Collaboration Rules:

- Follow pair programming guidelines
- Cite all sources of help
- Independent work requirements
- Proper documentation of collaboration

2. Code Requirements:

- Original work
- Proper citations
- Style guide compliance
- Testing requirements

[Course: CS15] Support Services

Source: Spring 2025 Course Syllabus

1. Accessibility Services:

- StAAR Center support
- Academic accommodations
- Study assistance
- Note-taking help
- Writing support
- Subject tutoring

2. Additional Support:

- Mental health services (CMHS)
- TA Liaison/Ombudsperson support
- Departmental resources
- Inclusive learning environment

[Course: CS15] Communication Channels
Source: Spring 2025 Course Syllabus

1. Primary Platforms:

- Piazza for course discussions
- Email for personal matters
- Office hours for direct help
- Lab sessions for hands-on support

2. Communication Guidelines:

- Check Piazza daily
- Public posts preferred
- Professional communication
- Timely response expectations

[Course: CS15] Grading and Assessment
Source: Spring 2025 Course Syllabus

1. Grade Components:

- Programming Assignments
- Projects
- Labs
- Midterm Exam
- Final Exam
- Class Participation

2. Assignment Policies:

- Late Policy:
 - * Extensions must be requested in advance
 - * Limited number of late days per semester
 - * Penalty for unauthorized late submissions
 - * No submissions accepted after solutions released
- Regrade Requests:
 - * Must be submitted within one week of grade release
 - * Detailed explanation required
 - * Entire assignment may be regraded
 - * Final decision rests with course staff

3. Testing and Submission:
 - Limited number of submission attempts
 - All code must pass provided test cases
 - Additional hidden test cases for grading
 - Style and documentation count towards grade
 - Code must compile without warnings
 - Memory leaks and segmentation faults impact grade
4. Lab Grading:
 - Attendance required (2 absences allowed)
 - Submission completion
 - Good-faith effort required
 - Pre-lab completion when assigned
 - Participation in lab activities
5. Exam Policies:
 - Midterm and final are closed-book
 - No electronic devices allowed
 - Cheat sheets policy will be announced
 - Make-up exams require prior approval
 - Medical emergencies must be documented
6. Academic Standing:
 - Minimum grade requirements for prerequisites
 - Passing grade requirements
 - Impact on future course eligibility
 - Department academic standards
7. Extra Credit:
 - Occasional opportunities announced in class
 - Not guaranteed
 - Cannot replace core assignments

[Course: CS15] Student Reviews

Source: CS15 Student Reviews (2022–2024) and RateMyProfessors
(<https://www.ratemyprofessors.com/professor/2685422>)

1. Instructor Quality (Professor Milod Kazerounian):
 - "Professor Kazerounian explains concepts clearly and is approachable during office hours."
 - "Professor Kazerounian received a 4.9/5.0 overall quality rating from 40 student reviews."
 - "One of the most caring professors at Tufts. His lectures are amazing and he is very accessible outside of class."
 - "Milod is an amazing professor, he really cares about his students, and course content."
 - "Funny and engaging lectures, makes the material accessible."

2. Course Difficulty:

- "Challenging but manageable if you start assignments early."
- "Projects take much longer than anticipated – start early!"
- "Lab sessions are crucial for understanding the weekly material."
- "Time commitment is significant: expect 10–15 hours per week outside of class."

3. Learning Outcomes:

- "Gained solid understanding of linked lists, trees, and recursion."
- "Improved C++ skills substantially by the end of the course."
- "Memory management concepts were challenging but essential to learn."
- "Projects build on each other and help reinforce concepts."

4. Success Strategies from Students:

- "Attend every lab – they're invaluable for completing the projects."
- "Use office hours early and often, not just when you're stuck."
- "Form study groups but make sure to do your own coding."
- "Keep up with the reading materials – they complement lectures well."
- "Start projects the day they're assigned, not the weekend before due date."

5. Overall Satisfaction:

- Average rating: 4.2/5.0
- Most students found the course challenging but rewarding
- Strong foundation for future CS courses
- Skills directly applicable to technical interviews

Last Updated: Based on Fall 2025 Course Catalog (<https://www.cs.tufts.edu/t/courses/description/fall2025/CS/15-01>), Spring 2025 Syllabus (<https://www.cs.tufts.edu/comp/15/>), and Student Reviews from RateMyProfessors (<https://www.ratemyprofessors.com/professor/2685422>) and 2022–2024 course evaluations

Data updated on April 20, 2025.
